Meet the Mobility Hubs Team at the Burlington Mobility Hubs Study Launch Party

The city is beginning work on plans for Burlington's Mobility Hubs. Mobility Hubs are the areas located around the city's three GO stations and the downtown, and have been identified as opportunities for new growth and development in Burlington over the next 20 years.

Drop in to our launch party at the Mobility Hubs office and meet the team. We look forward to working with residents and business owners to guide how these areas will grow and change in the future!
