Subject: Parking Lot 1 and Elgin Promenade Phase 1 Construction

Dear Resident,

The City of Burlington will begin construction of Parking Lot 1 (431 Elizabeth Street) in May of this year. The work includes building the first phase of the Elgin Promenade on the north side of Parking Lot 1. Specific project work includes:

- Removal of existing walkway, fencing, lighting and pavements
- Temporary removal of parking lot signs
- Placement of parking lot lighting and Architectural concrete pathway pavement
- Placement of new bollards along walkway
- Full depth asphalt replacement

Road/Lane Closures

Throughout the project, the traffic maybe impacted. Every effort will be made to keep disruption to a minimum. Construction signs will be posted and the site will be barricaded. Please exercise caution and obey all sings placed for your safety.

Access to parking lot #1

Vehicle access to parking lot # 1 will be closed for the duration of the project.

Garbage

Please continue to put your garbage and recycling out on the usual day. It is the contractor's responsibility to move your garbage to a location that it can be accessed by the garbage truck and return your garbage containers. In order to help the contractor we would ask that you indicate, on you garbage cans and recycling bins, your residence.

Vibration

You may at times experience some minor vibration as a result of construction equipment.

Construction is expected to start as soon as contract documents and subsurface locates are in place. The project schedule is also subject to weather conditions. The placement of new site furniture and plantings for this phase will occur at a later date.
